Autumn Term

During the first week at school, pupils receive an Acceptable User form. This discussed in class and signed by the pupil and placed with their computer work.

Computing

Online Safety lessons for Years 1-6 using 'Kapow Primary' Units.

EYFS – Keeping safe online.

Year 1 – what the internet is and how to use it safely; online emotions; being kind online and posting and sharing online.

Year 2 – posting online; how to keep things safe and private online and true or false online posts

Year 3 – 'fake' news; privacy settings; ways to deal with upsetting content and protecting personal information.

Year 4 – navigating the internet in a safe and respectful way; searching online; how companies use the internet; fact, opinion or belief; what is a bot? and the amount of time spent online.

Year 5 - Online protection, communication and reputation; online bullying and online health

Year 6 – issues online that produce negative feelings and ways to get help; impact and consequences of sharing online; creating a positive reputation online; how to capture bullying content as evidence; managing personal passwords and strategies to help protect pupils online.

Online Safety lessons and Acceptable User form are revisited whenever pupil's access the internet across the curriculum, including homework tasks.
